SmartBorder ABI/ACE

The SmartBorder line of software was designed from the ground up to increase productivity for customs brokers, carriers, and self-directed importers.

As U.S. Customs continues its emphasis on compliance, our team of developers and licensed customs brokers stays one step ahead so you can focus on your business.

Our Technology Solution

SmartBorder's SaaS-based application was designed from the ground up to feature cutting edge technology to help you complete entries faster and more accurately including numerous data verification functions, real-time status updates and the ability to bypass redundant keying practices. And it's all backed by our industry-leading training and support up to 24 hours a day, 7 days a week.

How You'll Benefit

- **Leverage the best tools and technology.** SmartBorder is the pioneer of internet-based ABI and has developed a very fast and user friendly system that is years ahead of the competition. SmartBorder specializes in ABI and compliance software, and focuses all of its effort on improving the system for customs brokers and importers.
- **Knowledgeable help when you need it.** SmartBorder has experienced a 99% client retention rate since the inception of the company. This is due in large part to the fast response and competency of the SmartBorder support team. Our team of licensed customs brokers will provide professional support for a wide range of topics from how to use the software, to customs regulations and procedures to other issues that you may encounter.
- **Save time with flexible data integration options.** SmartBorder interfaces with several 3rd party applications including systems for Global Trade Management, accounting, inventory, dispatch and ERP. SmartBorder supports a myriad of options for data integration including EDI, XML, FTP, Web Services, real-time processing, MS-excel, CSV imports, etc.

- Document Imaging System
- Reconciliation Entries
- Custom EDI Integration
- Integration with 3rd party Accounting, ERP and GTM Systems

About SmartBorder

SmartBorder is a powerful, SaaS (“Software-as-a-Service”, also known as “ASP”) application that does one thing and does it better than any other solution on the market - it facilitates time-saving, Customs-compliant importation of goods into Canada and the United States.

SmartBorder not only meets the filing requirements, but also provides additional benefits to your cross-border shipping process. The SmartBorder suite of products fit your business needs, including full or partial EDI integration into your freight or ERP systems.
